STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow children or pets into the treated area until dry.

In New York State, this product may not be applied to lawns within 100 ft of a coastal marsh, or stream that drains directly into a coastal marsh.

HOW TO APPLY

Determine the size of the spraying job. For lawns, measure the area to be sprayed. For trees, shrubs and flowers, apply as a thorough cover spray. Begin treating when insects first appear. Applications should be repeated only as directed to maintain control. Apply as directed in the rate chart. Remember, thorough coverage is important. Be sure to follow the important use limitations for the specific vegetable you are treating, including the amount of spray that can be applied, the interval between treatments and the days to wait before harvest.

USING THE READY SPRAY NOZZLE

1. Shake container well before using.
2. Connect a garden hose to the Ready Spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the safety tab in the valve notch.
3. Turn on water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so that you don't come into contact with the treated area.
4. To BEGIN spraying, point nozzle toward treatment site and a.) bend the safety tab back (located at right of dial) with your thumb and b.) hold while turning dial clockwise until it stops. Water will automatically mix with the product.
5. Spray until wet to control insects. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas.
6. To STOP spraying, QUICKLY turn the dial counterclockwise until it stops and the safety tab engages into the notch on the valve. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.
7. To STORE unused product, make sure the dial is in the "OFF" position with safety tab in the valve notch. Place in cool area away from heat, sunlight or open flame.

NOTE: This product is non-staining to most home siding depending on age and cleanliness. However, before using in areas where the spray may contact home siding (vinyl siding in particular), test in an inconspicuous area and recheck in a few hours. Do not use if any staining is observed.

LAWNS

THATCH-INFESTING INSECTS/UNDERGROUND INSECTS including blue grass billbug (adult), black turfgrass *Ataenius* (adult), chiggers, chinch bugs, white grubs (Japanese beetle, European chafer, southern chafer), dung beetle and hyperodes weevils (adult) and mole crickets (nymphs and young adults). Use one quart of this product to treat 8,000 sq ft of lawn. For subsurface insect control (mole crickets, grubs), water treated area with additional $\frac{1}{4}$ to $\frac{1}{2}$ inch of water for optimum results. Do not apply more than seven (7) times per year per location.

SURFACE INSECTS including ants*, armyworms, cockroaches, crickets, cutworms, earwigs, fleas, lawn moths (sod webworms), millipedes, mosquitoes, palmetto bugs, sowbugs, mites, spittlebugs, deer ticks (which may transmit Lyme Disease) and waterbugs. Use one quart of this product to treat 16,000 sq ft of lawn. Thoroughly wet down grass a few hours before applying. Delay additional watering or mowing for 24 hours after application for optimum control of surface insects. Do not apply more than fourteen (14) times per year per location.

WHEN TO TREAT: Treat the following pests during the months indicated or when first noticed.

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
				Billbugs			Grubs				
				Dung beetle grubs							
			Hyperodes weevils								
Treat ants* and other insects when they first appear or you notice lawn damage.											

*Argentine, southern, field, Allegheny mound, Florida carpenter, cornfield, honey, pavement, nuisance.

ORNAMENTAL TREES, SHRUBS AND FLOWERS

For use on ornamental trees, shrubs and flowers such as but not limited to: Ageratum, Aster, Arborvitae, Arizona Cypress, Azaleas, Begonia, Birch, Boxwood, Box Elder, Camellias, Carnations, Cherry (ornamental), Chrysanthemums, Coleus, Common Ninebark, Conifers, Douglas Fir, Elm, English Ivy, Euonymus, Exacum, Fir, Gladioli, Gold Bells, Hawthorn, Holly, Honeysuckle, Hypoestes, Ivy, Juniper, Lilac, Locust, Maple, Marigold, Mimosa, Mock Orange, Nannyberry, Oak, Orchid, Palm, Pansy, Pea Shrub, Petunia, Philodendron, Pine, Ornamental Plum, Poinsettia, Poplar, Tulip Poplar, Rhododendron, Roses, Snapdragon, Snowberry, Spruce, Taxus, Weeping Fig, Willow, Zinnia.

To control ants*, armyworms, azalea caterpillar, aphids, bagworms, black vine weevil (adult), boxelder bugs, budworms, California oakworm, cankerworms, cockroaches, crickets, cutworms, eastern tent caterpillar, elm leaf beetles, European sawfly, fall webworm, flea beetles, forest tent caterpillar, gypsy moth larvae, Japanese beetles (adults), June beetles (adults), lace bugs, leaf-feeding caterpillars, leafhoppers, leafminers (adults), leafrollers, leaf skeletonizers, midges, oleander moth larvae, pillbug, pine sawfly, pine shoot beetles, pinetip moths, plant bugs, root weevil, sawfly, scale insects (crawlers), spiders, spittlebugs, striped beetles, striped oakworm, thrips, tip moth, tussock moth larvae, broadmites, brown softscale, California redscale (crawler), clover mites, mealybugs, pineneedle scale (crawler), spider mites and whiteflies.

*Argentine, southern, field, Allegheny mound, Florida carpenter, cornfield, honey, pavement, nuisance.

Apply as a thorough foliar spray. Wet leaves and branches to the dripping point. Try to spray underside of leaves and penetrate dense foliage.

USE TIPS

- For best results, apply early before insect populations are high.
- For scale control, treat entire plant, including stem, trunk and twigs.
- For bagworm control, apply when bagworm larvae begin to hatch.
- For best results, apply to both sides of plant leaves and all plant surfaces where insects are found.

VEGETABLES

Apply when insects appear or when damage occurs. Spray to wet all infested plant surfaces. Apply as a thorough foliar spray. Wet leaves and branches to the dripping point. Try to spray underside of leaves and penetrate dense foliage. One quart will treat 19,200 sq ft of vegetable plants.

Do not apply more than five times per growing season to corn. For all other crops, do not apply more than nine times per growing season.

For use on Broccoli, Brussels Sprouts, Cabbage, Cavalo Broccoli, Cauliflower, Chinese Broccoli, Chinese Cabbage, Chinese Mustard and Kohlrabi to control: **Alfalfa looper, cabbage looper, imported cabbageworm, southern cabbageworm, cutworm, cabbage webworm, diamondback moth, armyworm, beet armyworm, fall armyworm, yellow-striped armyworm, corn earworm, flea beetle, Japanese beetle (adult), grasshopper, leafhopper, plant bug, including lygus bug, stink bug, meadow spittlebug, aphid, whitefly, thrips, spider mite.**

For use on Corn (sweet and pop) to control: **Cutworm, western bean cutworm, corn earworm, green cloverworm, meadow spittlebug, tobacco budworm, European corn borer, southwestern corn borer, stalk borer, hop vine borer, armyworm, beet armyworm, western corn rootworm beetle (adult), northern corn rootworm beetle (adult), southern corn rootworm beetle (adult), Mexican corn rootworm beetle (adult), bean leaf beetle, cereal leaf beetle, Japanese beetle (adult), sap beetle (adult), stink bug, grasshopper, corn leaf aphid, English grain aphid, chinch bug, green bug.**

Sweet Corn only: **Southern armyworm, western bean cutworm, tarnished plant bug, aster leafhopper, aphid, spider mite, corn silkfly (adult).**

For use on Lettuce (head and leaf) to control: **Alfalfa looper, cabbage looper, imported cabbageworm, cutworm, saltmarsh caterpillar, green cloverworm, diamondback moth, armyworm, beet armyworm, fall armyworm, southern armyworm, corn earworm, tobacco budworm, European corn borer, flea beetle, Japanese beetle (adult), vegetable weevil (adult), grasshopper, leafhopper, plant bug, stink bug, meadow spittlebug, aphid, whitefly, spider mite.**

For use on Onion (bulb) and Garlic to control: **Cutworm, seedcorn maggot (adult), onion maggot (adult), leafminer (adult), armyworm, onion thrips, tobacco thrips, western flower thrips, flower thrips, aphid, plant bug, stink bug.**

For use on Tomato, Tomatillo, Peppers (bell and nonbell), Eggplant, Ground Cherry and Pepino to control: **Cabbage looper, cutworm spp., hornworm, tomato fruitworm, tobacco budworm, tomato pinworm, beet armyworm, southern armyworm, yellow-striped armyworm, fall armyworm, European corn borer, leafminer, Colorado potato beetle, flea beetle, grasshopper, leafhopper, aphid, whitefly, meadow spittlebug, stink bug, plant bug, stalk borer, blister beetle, Japanese beetle (adult), vegetable weevil, cucumber beetle (adult).**

For use on Asparagus Beans, Snap Beans, Wax Beans, Black-Eyed Peas, Garden Peas, Green Peas and Sugar Snap Peas to control: **Cutworm spp., green cloverworm, imported cabbageworm, saltmarsh caterpillar, velvetleaf caterpillar, Mexican bean beetle, corn earworm, painted lady butterfly (larva), European corn borer, looper spp., western bean cutworm, armyworm, yellow-striped armyworm, western yellow-striped armyworm, bean leafskeletonizer, webworm spp., leafminer spp., alfalfa caterpillar, stalk borer, cucumber beetle (adult), corn rootworm beetle (adult), flea beetle (adult), blister beetle, bean leaf beetle, Japanese beetle (adult), leafhopper spp., fleas hopper spp., three-cornered alfalfa hopper, meadow spittle bug, stink bug spp., plant bug spp., grasshopper, thrips spp., aphid spp.**

NUMBER OF DAYS TO WAIT BETWEEN THE LAST APPLICATION AND HARVEST

VEGETABLES	PHI
Broccoli, Brussels Sprouts, Cabbage, Cavalo Broccoli, Cauliflower, Chinese Broccoli, Chinese Cabbage, Chinese Mustard, Kohlrabi, Lettuce (head and leaf)	1
Tomato, Tomatillo, Peppers (bell and nonbell), Eggplant, Ground Cherry and Pepino	5
Onions (bulb), Garlic	14
Corn (sweet and pop)	21
Asparagus Beans, Snap Beans, Wax Beans, Black-Eyed Peas, Garden Peas, Green Peas and Sugar Snap Peas	7
PHI = Pre-Harvest Interval	

STORAGE AND DISPOSAL

Storage: Store in a cool dry area away from heat or open flame.

If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

ALTO. LEA TODA LA ETIQUETA ANTES DE USAR.

MODO DE EMPLEO

Se considera una violación a la ley federal usar este producto con otros fines que los indicados en la etiqueta.

No permita que los niños ni las mascotas entren en el área tratada hasta que esté seca.

En el Estado de Nueva York, no se podrá aplicar este producto en áreas de césped ubicadas a una distancia de hasta 100 pies de un pantano costero o de un arroyo que desemboque directamente en un pantano costero.

CÓMO APLICAR

Defina la magnitud de la tarea de rocío. Para céspedes, mida el área que se va a rociar. En árboles, arbustos y flores, aplique como un rocío que cubra por completo. Comience el tratamiento cuando aparezcan los insectos por primera vez. Las aplicaciones sólo se deben repetir como se indica para mantener el control. Aplique el producto como se indica en el cuadro de dosis. Recuerde, es importante que la cobertura sea completa. Asegúrese de seguir las limitaciones de uso para la hortaliza específica que esté tratando, incluso la cantidad de rocío que se puede aplicar, el intervalo entre tratamientos y los días que hay que esperar antes de cosechar.

CÓMO USAR LA BOQUILLA READY SPRAY (PREPARADA PARA ROCIAR)

1. **Agite bien el envase antes de usar el producto.**
2. Conecte una manguera de jardín a la boquilla Ready Spray. Asegúrese de que el selector esté en la posición "OFF" (apagado) con la lengüeta de seguridad en la muesca de la válvula.
3. Abra el agua del grifo. Extienda la manguera hasta la zona más alejada que se vaya a tratar y retroceda hacia el grifo de manera de no entrar en contacto con el área tratada.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID • If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

Environmental Hazards • This product is extremely toxic to fish. Do not contaminate water when disposing of equipment washwaters. Do not apply directly to water. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

PRECAUCIONES

Riesgos para los seres humanos y los animales domésticos

PRECAUCIÓN. Nocivo si se ingiere. Causa irritación moderada a los ojos. Evite el contacto con los ojos o la ropa. Después de manipularlo, lávese muy bien las manos con agua y jabón

PRIMEROS AUXILIOS • Si se ingiere: Llame inmediatamente a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento. Si la persona puede tragar, haga que beba poco a poco un vaso de agua. No induzca el vómito a menos que así se lo indique un centro de control de envenenamientos o un médico. No administre nada por la boca a una persona que haya perdido el conocimiento. **Si entra en contacto con los ojos:** Mantenga los ojos abiertos y enjuague con agua lentamente, con cuidado, durante 15-20 minutos. Si hay lentes de contacto, retírelos después de los primeros 5 minutos, luego continúe enjuagando los ojos. Llame a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento.

Cuando llame a un centro de control de envenenamientos o a un médico, o intente obtener tratamiento, tenga a la mano el envase o la etiqueta del producto.

Riesgos para el medio ambiente • Este producto es extremadamente tóxico para los peces. No contamine el agua cuando deseche las aguas de lavado del equipo. No aplique directamente al agua. El arrastre y el escurrimiento desde las áreas tratadas pueden resultar peligrosos para los organismos acuáticos de las zonas vecinas. Este producto es sumamente tóxico para las abejas expuestas al tratamiento directo o a los residuos en las malezas o en los cultivos florecientes. No aplique este producto ni permita su arrastre a las malezas o a los cultivos florecientes si las abejas se encuentran en la zona de tratamiento.

NOTA: El comprador asume toda la responsabilidad en caso de no seguir las instrucciones sobre seguridad y modo de empleo.
